

Claims:

1. A beverage system comprising:
one or more portions of concentrate capable of
5 being combined with liquid to make a beverage;
an outer cup capable of serving said beverage;
an inner cup disposed within said outer cup,
said inner cup containing said portions; and
a lid on said outer cup to contain said inner
10 cup and said portions.
2. The beverage system of claim 1 wherein
said portions comprise flavored beverage concentrates.
- 15 3. The beverage system of claim 1 wherein
said portions comprise flavored soup concentrates.
4. The beverage system of claim 1 wherein
said portions comprise gelatin compositions.
- 20 5. The beverage system of claim 1 wherein
said outer cup has measuring indicia thereon.
6. The beverage system of claim 1 wherein
25 said outer cup and said inner cup are formed of a
translucent polymer.
7. The beverage system of claim 1 wherein
said portions are translucent.
- 30 8. The beverage system of claim 1 wherein
said portions include nutritional supplements.
9. The beverage system of claim 1 wherein
35 said portions comprise concentrated coffee.

10. The beverage system of claim 1 wherein said portions comprise concentrated tea.

11. The beverage system of claim 1 wherein
5 said portions are dissolvable in liquid.

12. The beverage system of claim 1 wherein said portions are contained in capsules.

10 13. The beverage system of claim 12 wherein said capsules can be opened to allow said portions to be added into said outer cup.

14. The beverage system of claim 13 wherein
15 said capsules comprise two halves joined at an area of weakness.

15. The beverage system of claim 12 wherein said capsules are dissolvable in liquid.
20

16. A method of making a beverage using a beverage system comprising the steps of:
removing a lid from an outer cup;
removing an inner cup from within said outer
25 cup;
withdrawing one or more portions of concentrate from within said inner cup;
placing said portions in said outer cup;
adding a liquid to said outer cup with said
30 portions therein; and
combining said portions and said liquid into said beverage.

17. The method of making a beverage of claim
35 16 wherein the step of adding a liquid to said outer cup

with said portions therein includes the step of measuring the amount of liquid added with indicia located on said outer cup.

5 18. The method of making a beverage of claim 16 wherein the step of combining said portions and said liquid into said beverage includes the step of replacing said lid onto said outer cup to seal said outer cup.

10 19. The method of making a beverage of claim 16 wherein the step of combining said portions and said liquid into said beverage includes the step of shaking said outer cup with said portions and said liquid therein.

15 20. The method of making a beverage of claim 16 wherein said portions are contained in capsules.

20 21. The method of making a beverage of claim 20 wherein said capsules comprise cellulose encasements.

22. The beverage system of claim 12 wherein said capsules comprise cellulose encasements.
